Apeer 70mm Door Construction:

70mm super-strong core. High strength, metal reinforcing. Double rebate draft seal with GRP inner frame.

Toughened, triple glazing housed in reinforced mouldings with the optional extra laminate glass for optimum security.

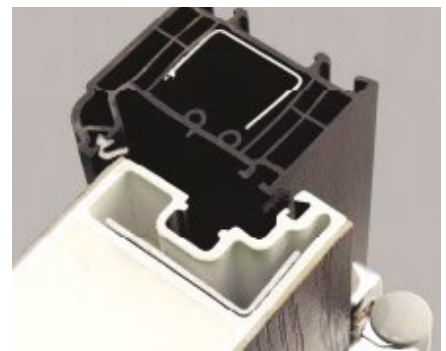

Secure by Design

Hardened steel hinge bolts make it virtually impossible to force open our door or lift them off their hinges.

Multi-point Yale locking system features two rollers, three hooks, two deadbolts and a latch. It secures the door from top to bottom.

Walsh Business Park,
Ballysimon Road,
Limerick, V94DW64

Every effort has been made to reproduce the colour of our doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to some colour deviation. For exact colour matching please request a sample before purchase. Please note the grain on the door does not replicate the grain on the frame as the frame uses a PVC foil. Glass designs shown in sidelights may vary depending on sidelight width. Coloured film in glass designs is not an exact match to the door colour.

Whilst care is taken to ensure that this brochure is as up-to-date and accurate as possible, no responsibility can be taken by Walsh Windows for any errors or omissions contained herein. All measurements must be verified by surveyor on site.
